

DRY SUNDAY IN NEW YORK

SEVERAL CLUBS HAVE SUSPENDED
THEIR VISITING LISTS.

Great Interest Was Centered in the Proceedings of the Day—Oliver Sumner Teale, President of the Girder Club Will Make a Test Case of the Law—Detectives Were Served With Drinks.

New York, Sept. 15.—It was the general verdict to-day that this was a dry Sunday as New York has seen. Great interest was centered in to-day's proceedings, as it was expected the police would pay especial attention to the clubs and make a test case as to the rights of these institutions to sell liquor. In anticipation of the probable action of the police commissioners the great majority of the big clubs decided it would be better for a time at least to accept the commissioners' interpretation of the law.

Governors of many clubs decided on Saturday that the visiting lists should be suspended, and that no drink should be served to members without meals. The new Manhattan Athletic club decided that no liquor should be sold at all on Sunday until the present question is decided. Among the clubs that suspended their visiting lists and served drinks only with meals to-day were the Lotus, Raquet, Knickerbocker, Players, New York Athletic and Calumet. The doors of the Union club were kept tightly closed and reporters could not get information as to what action the governors had taken on the question. On the bulletin board of the Reform club the following was posted:

"The club bar will hereafter be closed on Sundays."

Captain Pickett of the Tenderloin precinct, paid particular attention to Girder club, on Twenty-eighth street, of which Oliver Sumner Teale is president. Mr. Teale is very anxious that a test case be made of the rights of his club to sell liquor on Sundays to duly accredited members. He contends that the club is merely a storehouse for the members, and that they can on Sunday get their drinks.

Two detectives, under orders, joined the Girder club a week ago to get evidence against it. They came around to the club on Saturday to get their tickets. This afternoon they visited the club, presented tickets and were served. Mr. Teale was present and recognized and spoke to the men. The latter made no arrests.

The Marie Antoinette club, composed in the main of workmen organized as a drinking club to evade the excise laws, was visited to-day by a policeman in citizen's clothes, who arrested the bartender.

Magistrate Cornell is vice president of the University Athletic club. On Friday the house committee sent him a message asking him for advice as to their action on Sunday. The magistrate advised that the bar be kept closed, he said, as he would hold the club people the same as if a saloon keeper. The club members followed his advice. The excise arrests to-day amounted to 27 against 18 last Sunday. In 23 precincts out of 35 not a single excise arrest was recorded to-day.

So far as could be learned to-day the Century, Union League, Metropolitan and Union clubs were open and members could get drinks. As far as the saloons were concerned it was very dry and the greater number of them had the bars closed, so that it could be seen they were not doing business. The police kept a strict watch on the social clubs of the east side and west side, and also on all "fakie" clubs gotten up for the sale of liquor on Sunday.

It is said Mr. Roosevelt and Mr. Andrews took a trip around the upper part of the city to-day and observed the working of the law.

McGirr Knocked Out.
Bridgeport, Sept. 15.—One hundred and fifty sports witnessed a fight which resulted in a knockout between Fred McGirr of this city and a man named Tuttle of South Norwalk at 11 o'clock this morning in a barn at Fairfield Beach. In the first two rounds the fight went for McGirr, but in the third round, by a chance blow, Tuttle struck McGirr on the jaw and left him flat on the floor so that he was unable to rise until several minutes after time had been called. At the beginning of the fight, odds of 3 to 1 were taken on McGirr.

The Changes Completed.

Murphy of Cromwell pastor of the Catholic parish at Myrtle to succeed Father Dougherty, who succeeded Father Slocum at South Norwalk. Rev. Father Gibbons of South Coventry will succeed Father Murphy and Father W. H. May of New Britain takes the pastorate of South Coventry parish. These complete the changes caused by the death of Vicar General Hughes.

Storage Rates Raised.
Hamburg, Sept. 15.—The Hamburg and Bremen steamships have raised their storage rates to New York to \$35. The advance will go into effect October 15.

Strikers' Request to be Considered.
New Bedford, Sept. 15.—Secretary Ross of the mule spinners' union, has a letter from Andrew G. Pierce, representing the cloak manufacturers, appointing a conference at 3 o'clock to-morrow at which time the request for an advance in wages will be considered.

WAGE SITUATION DISCUSSED.

Secretary Whitehead Has Given Out a Statement to the Public.

Fall River, Mass., Sept. 15.—The operatives have been earnestly discussing the wage situation all day and strike talk has been very prevalent. The weavers' executive committee is much disturbed over the manufacturers' letter. Secretary Whitehead gave out the following to-day:

"We were aware of the fact that the manufacturers were fortunate in purchasing cotton some months ago at considerable less than the prices. Our claim was not entirely based on those fortunate purchases of cotton, but on the present condition of the market—namely, a small stock on hand, large sales ahead for weekly delivery and the general upward tendency of prices for cloth. These are reasons why we think the manufacturers could increase the cost of production and still make a reasonable profit for the stockholders. The statement that the cloth is being produced for more than eleven years ending last April was 18.44 cents per cut is undoubtedly correct. It is equally true that during the last eleven years wages have been indirectly reduced by lengthening cuts and changing styles from one grade of goods to another. It has invariably resulted in the weavers receiving less per cut than when the same styles were previously being woven. Why should the manufacturers base the margin on forty-five yards of cloth when they freely admit that the average bought is nearly forty-seven yards? If our demand is unreasonable, then it is unreasonable for the manufacturers to base the margin on forty-five yards. The average margin between forty-five yards of cloth and eight pounds of cotton since the first of November, 1894, up to the present time has been 72.66 cents. The average price paid for weaving cloth during the same period has been 15.93 cents, or nearly 10 per cent. below the average price paid during the last eleven years. With these facts in our possession we consider our demands to be reasonable and just."

Mr. Whitehead also said: "The dividends paid to stockholders the last quarter were very large and the stocks of mills are selling to-day at prices that would be rated high in any metropolitan stock exchange. Contractors are being urged very hard to complete the new mills and additions now under way, thus showing how much faith there is in the ability of local mills to pay satisfactory dividends in the future."

Secretary Whitehead lays special stress on the prices paid for weaving in Cohoes and in Rhode Island, where all reductions have been restored and where good prices are being paid.

There was a report current to-day that a strike was soon to be inaugurated among the operatives of the iron works, whose employer is not a member of the association. This could not be verified.

First Frost of the Season.

Bellows Falls, Vt., Sept. 15.—The first severe frost of the season in this vicinity occurred last night. The mercury fell to 30 degrees, but a heavy fog prevented damage within a mile or two of the Connecticut. Back of that the injury to crops, especially corn, is heavy.

Sunday Hunter Fatally Shot.

Greenfield, Mass., Sept. 15.—Cecil I. Allen of Montague, aged twenty-one years, was accidentally and fatally shot by Leo Ball this afternoon. The shot, unknown to one another, were hunting partridges in the woods. Both fired at a bird and a double B shot penetrated Allen's skull, entering the brain. There is little hope of his recovery. Ball is nearly frantic with grief.

Resulted in Dosses.

Berlin, Sept. 15.—The Hamburg newspapers say that American imports of iron ore must have resulted in losses to the American shipper until the Westphalian iron works desiring to make the European market more profitable to their desires have arranged the shipments and are paying the losses themselves. The shipments, one paper thinks, must yet develop a profit, however, as the experiment proves the utility of the American ore for the German basis of steel processes.

Swamped by Breakers.

Northport, N. Y., Sept. 15.—Sloop yacht Beatrix of New York was driven ashore on Eaton's Neck last night during the gale. She was bound from South Norwalk, Conn., to Huntington Bay. There were three men aboard, named William Gorham, Herbert Gorham and Arthur Ferris. In attempting to go ashore in a yawl the boat was swamped by the breakers. The men were rescued by members of the Eaton's Neck life station. The yacht had several holes stove in her bottom and filled with water and sank.

SYNAGOGUE DEDICATED

A LARGE CONGREGATION PRESENT AT THE NEW B'NAI SCHOLOM.

Reposing the Sacred Scrolls in the Holy Ark—Lighting the Perpetual Fire—Reminiscences of Past History—Presenting the Key—Dedication Sermon by Rev. M. Elkin of Hartford—Some of Those Present.

The dedication exercises of the new synagogue of the congregation B'nei Scholom at No. 98 Olive street took place yesterday afternoon and was attended by a large number of the Jewish people of the city and their friends. The new edifice was filled even to the gallery. The altar was decorated with palms set along the front edge. Previous to the exercises in the new synagogue the congregation assembled at the old William street synagogue, where no services were held, but the ceremony of removing the sacred scrolls. They were taken in charge by Rev. M. Elkin of Hartford, Rev. M. Previn, M. Schoenberg, E. Schoenberg, L. Bernstein, F. Ullman, S. Loeb, J. Weil, Joseph Messier and J. Kaiser, who placed them in carriages and took them to the new synagogue. After reaching there a procession formed at the door, with Rev. Mr. Elkin and Rev. Mr. Previn at the head, followed by the scroll bearers, and lastly came the choir girls, Miss Sadie Levy, Miss Rebecca Kaiser, Miss R. Previn, Miss Rebecca Schoenberg, Miss M. Goldbaum, Miss E. Goldbaum, Miss M. Goldbaum, Miss E. Stone, Miss M. Kaiser, Miss A. Goldbaum, Miss H. Langrock, Miss R. Schomberger, Miss A. Loeb, Miss R. Loeb, Miss Q. Laenbaum and Miss R. Laenbaum. The scrolls were then deposited in the holy ark. As the procession entered the synagogue the choir of young girls chanted "Pischa Lee Schara Zadeck." "Open the Door of Righteousness," assisted by Rev. M. Previn. A string quartet composed of Messrs. I. Troostwyk, S. P. Well, R. Steiner and W. Miller accompanied the singing during the exercises and played several selections written especially for the occasion by Mr. Troostwyk. The next thing on the program after the reposing of the holy scrolls was the presentation of the key of the synagogue to the president, Mr. J. Kaiser, by Mr. E. Schoenberg, chairman of the building committee. Mr. Kaiser responded appropriately. Rev. M. Previn and the choir then chanted "Sach Scharm Roschamach." "Lift Up Ye Gates Your Heads and Let Enter the King of Glory," a selection from the psalm. Mr. Max Adler was down on the program to light the perpetual light, but he said that as he was a member of another congregation, he thought it more appropriate to have a member of B'nei Scholom to perform the ceremony, and called upon Mr. S. Cahn, who then lit the large brazer lamp, which hung in front of the holy ark. The chorus, accompanied by the string quartet then sang "Schmach Yisroel." "Hear O'er Israel the Lord Our God, the Lord is One."

The dedication sermon was preached by Rev. M. Elkin of Hartford. He first read a selection from the Targum, and then the words of the most fervent wish of David was to build a house for the Lord. This was denied him, but he was told that his son could accomplish the wish. The wish denied to David has been granted to the B'nei Scholom congregation. The work has only been accomplished by being carried with great enthusiasm, and the building is a memento of the zeal and pious hearts of those few who have erected this house of God. He also said that the people of Israel were allowed to return from captivity to the Holy Land, their first wish was to build a synagogue, their means were scanty and their numbers few, but the work was accomplished. Under different environments and conditions, but in the same scanty circumstances and with few numbers this congregation had accomplished much and the sun of God shown down brightly on the accomplishment of His holy desire. Mr. Elkin then spoke of the various names given in ancient times to Jewish houses of God. One was house of worship, another house of prayer and still another house of the congregation. He hoped that all of these names would apply to the new synagogue.

After more music by the string quartet, Rev. M. Previn delivered the discourse of the day in German. Mr. S. Cahn spoke in remembrance of absentees and of the past. He said that the congregation was organized June 23, 1855, and the place of meeting was on the corner of Whiting and George streets. The congregation afterwards removed to the corner of Church and Chapel streets, then to the William street house and finally into the new one yesterday. The regular afternoon service was then gone through with and the exercises closed with "Adon Olom," and the benediction by Rev. M. Previn.

Envelopes with subscription blank cards were passed around through the audience for those wishing to subscribe towards paying the debt incurred in building might put down whatever they wished to give. A check for the benefit of the church was received by Mr. Kaiser from Dr. Levesey of New York. Among those present at the dedication were Hon. N. D. Sperry, Mr. and Mrs. L. M. Hirsch of New York, Mrs. Mary Kaiser, Mrs. M. Doot of New York, George Kaiser of New York, A. Halper of Birmingham, M. Spier, president of the Court street congregation; C. Klein, J. Newman, H. C. Bretzfelder, H. Hirsch, Mrs. Dora Isaac and Max Adler.

A description of the temple has been given in a former issue of this paper.

SEVERAL SUNDAY ARRESTS

SALOON KEEPERS CHARGED WITH SELLING LIQUOR ON SUNDAY.

William Pagter Stole Newspapers—James Cunningham Charged With Four Offenses—Italian Girls Ask for Police Protection from Belligerent Lovers—Other Police News.

The police were alert yesterday in looking after violators of the Sunday liquor law, but despite their vigilant efforts they were successful in apprehending only two saloon keepers. Shortly after noon yesterday Patrolmen Poronto, Caulfield, McKeon and Linsley paid a visit to Edward Turbert's saloon at 675 Grand avenue and found the proprietor and his brother, Patrick, in the saloon. Edward was arrested, charged with violating the Sunday liquor law, and Patrick charged with violating a saloon on Sunday. Both were subsequently released on bonds.

Patrick Lee, a saloon keeper at 74 Oak street, was arrested yesterday by Patrolman McDermott and Doran on a warrant charging him with violation of the Sunday liquor law. The arrest was made on information given by Special Constable Williams. It is alleged that last Sunday a bottle of whiskey was bought from Lee, and this was the cause of the warrant being issued.

William Pagter, an eleven-year-old boy, was arrested early yesterday morning by Patrolman Ahearn and locked up charged with the theft of newspapers. Pagter lives at 35 Lafayette street. For some time past the Sunday papers have been stolen from the steps of the Monticello club on Temple street, and complaint was made to the police. Yesterday morning Patrolman Ahearn was detailed on the case, and shortly after 7 o'clock caught Pagter in the act of stealing the papers. The boy will be arraigned in the city court this morning, and will probably be committed to the Connecticut School for Boys at Meriden.

James Cunningham was arrested yesterday by Patrolmen McKeon and Rice and locked up at police headquarters, charged with breach of the peace, two cases, injury to property and drunkenness. Shortly after 2 o'clock yesterday afternoon Cunningham went to the house at 97 Adeline street, and it is alleged, broke in the door and assaulted Annie Brown and Maggie Farrell, and broke one of the Brown woman's teeth out. Cunningham will face Judge Cable in the city court this morning on the four charges.

Early last evening two sisters, Arabians and respectively nineteen and seventeen years, accompanied by their father, entered police headquarters and applied to Sergeant Crocker, who was in charge, for protection. They claimed that two young Italian men had been paying them attention against their wishes, and insisted upon them being married. Last evening the men came to the home of the girls at 20 Fair street and demanded that the girls should marry them, and when they refused they began against the doors, called the girls all sorts of names, whipped out revolvers and threatened to shoot both the girls and their father.

After repeated and unsuccessful efforts to force an entrance the men went away. The frightened inmates went at once to police headquarters and made their troubles known. The patrolman on the beat was instructed to be on the lookout for the return of the belligerent lovers, and to arrest them on sight in the event of their return. Up to midnight no arrests had been made, and it is thought that the men have given up their attempt to force the young girls to marry them.

CRAWLED TO HIS HOME.

Fell Into a Hole Eighteen Feet Deep While Carrying a Heavy Bar of Iron—Lay Stunned for Hours.

A serious accident happened to Mr. William James last week, who lives on Reynolds avenue, facing the Yale field. Mr. James had been to a blacksmith shop quite a distance from his home after an axle, which he had had repaired, and came back home by way of West Chapel street carrying the heavy iron axle upon his shoulders after dark. A washout had occurred in the roadway which had not been repaired, and not knowing of the fact, Mr. James walked into the large hole. He fell about eighteen feet and sustained serious injuries. He lay where he fell from 7 until 10 o'clock, and as no one happened along he at last made an effort to reach his home. He crawled the whole distance upon the ground, arriving at last in a very weak condition. He has since been confined to his bed and has been troubled with hemorrhages of the stomach. He is attended by Dr. Judson. Since the accident the hole has been filled in and it took forty loads of sand to repair the damage done to the roadway.

THIS MONKEY WAS DRUNK.

His Queer Actions Caused Considerable Excitement on Grand Avenue.

An intoxicated monkey was the cause of considerable excitement on Grand avenue near Jefferson street early Saturday evening. The monkey in question was the boon companion of an Italian organ grinder. The latter halted in front of Pasquale Deterio's saloon on Grand avenue and proceeded to grind out "After the Ball" in anything but melodious tones. The monkey immediately went into the saloon, intent upon collecting pennies. Inside the saloon was a man sitting at a table with half a glass of lager beer in front of him. This the monkey confiscated and drained the glass. He then jumped on to the bar and swallowed in quick succession two glasses of whiskey.

The organ grinder pulled the cord and the monkey collected several pennies and came out of the saloon. Soon after he struck the air the liquor he had taken after him and he began to reel around like a drunken man. Just then a dog came down the street and the monkey jumped on his back and rode the length of the cord by which he was fastened. He was then jerked off the dog's back and seeing a baby carriage near by, he climbed up into it and struck the occupant several times, after which he lost control of his legs and floundered about on the sidewalk.

By this time a large crowd had collected and the sidewalk was almost completely blocked. Several of the officers of the Grand avenue precinct noticed the crowd and were soon upon the scene. The crowd was quickly dispersed and the organ grinder notified to move on with his drunken companion under penalty of arrest. The instructions were complied with and the Italian with his intoxicated monkey under his arm soon made himself scarce in that neighborhood.

HE IS VON MOLTKE'S EQUAL

COUNT WALDERSEE SHOWS THAT HE IS A MASTER TACTICIAN.

In the Manoeuvres of the German Army at Stettin He Reversed the Program and Snatched Unforeseen Advantages From the Emperor—He Will be the Future Guide of the German Armies.

Berlin, Sept. 15.—The military experts who have just returned from participation in the manoeuvres at Stettin are unanimous in praise of the masterly generalship of Count von Waldersee, who reversed the whole program and snatched unforeseen advantages from the kaiser. The manner in which he conducted his part of the operation has confirmed the opinion that he will be the one who will guide the German armies in the next European war, which Germany shall be a combatant.

As a tactician he is almost if not quite the equal of the late Field Marshal von Moltke and in respect of dash and energy is second to no general Germany has ever had. In regard to the fighting qualities of the German troops the notions formed by the various experts and correspondents differ, but in the main are favorable. One correspondent says the reserve men during the heat of the movements lay on the ground, making it look like a field of battle strewn with wounded. During the climbing of the slopes for an assault the men dropped from the effects of the heat as though they had been shot and the army doctors rode around and administered restoratives. The sanitary corps unfasted the heavy knapsacks from the fallen men and assisted them to their feet. The men were always full of grit and moved forward as they had recovered their strength.

The correspondent of the United Press, who was present throughout the manoeuvres, contends that the men stood the hardship imposed upon them with wonderful fortitude and without any show of fatigue. It is true that some of them broke down and lay by the roadside, but these men comprised only a few hundred of the 120,000. Of much more importance was the failure of the horse material under undue exertions.

The cavalry became played out and the horses of the balloon detachment were so overworked that some times not even the severest whipping sufficed to get them up hill. The weight of the gas reservoir also proved too great a strain for the horses. All this shows the necessity of a radical reform of the military material.

RALLY DAY AT DWIGHT PLACE.

Yesterday was a great day at Dwight place church. At 10:30 a large audience listened with rapt attention to the sermon by the pastor on "Christ in You the Hope of Glory." At 12 the large chapel was filled to overflowing, many being unable to get in, and the program was carried out with enthusiasm. The following were particularly successful features: The church was beautifully decorated in nasturtiums, and all the music was beautiful and inspiring. At 2:30 in the afternoon the primary department held its rally with a similar program. A large proportion of the classes reported a perfect attendance. An enthusiastic young people's meeting at 4:30 and a praise service by the chorus choir, which was enjoyed by an unusually large audience, completed the "Rally Day" at the opening of the fall campaign.

The program at the Sunday school exercises included an address by Mr. C. A. Osborne, ex-Superintendent J. C. North, Dr. J. E. Twitcheell and Mr. H. G. Hitchcock, and a solo by Mrs. Bonney.

A JOURNEY ABROAD.

Return of Mr. Hurlie and Family From Europe.

Mrs. Thomas Hurlie and wife and her daughter and granddaughter have just returned from a trip to the old world. They came back on the Ontario, which sailed from London, and have had a very rough homeward passage, falling in with a bad storm which gave them a taste of life on the ocean wave, which they will not forget. It blew great guns and this was the same storm in which
